Target Groupers:	COMMON, DEN, EST, FIN, ICE, LAT, NOR, SWE		

Description

Iniated 2013-10-15 Norway

Problem:

This is a discrepancy between norwegian and national version and common NordDRG.

DG: J370 Chronic laryngitis

DGCAT:

Common version NordDRG 2013: 03M08 Other ear, nose, mouth and throat diagnoses

NordDRG Norwegian 2013: 03M05 Otitis media and upper respiratory infection

Norway prefers no change to the property.

This should be decided commonly in the expert group. The dg-categories should be same in all versions and this breaks the rule. This will possibly be impossible in the future.

The question is unclear, the origin of the property is probably from the US-system but the point is that chronic laryngitis is not really just an infection.

History

#1 - 2014-02-05 13:58 - Anonymous

- Description updated
- Assignee set to Martti Virtanen
- Priority changed from Normal to Minor
- Start date changed from 2013-12-11 to 2013-10-15

#2 - 2014-02-05 13:59 - Anonymous

- Description updated

#3 - 2014-03-11 12:35 - Anonymous

- Case type deleted (Minor)

#4 - 2014-03-24 18:40 - Martti Virtanen

2014-03-24 Martti Virtanen

This is the same as case #251

#5 - 2014-03-25 15:44 - Anonymous

- *Parent task set to #11*

Comment Expert Group 2014-03-24

This issue is discussed in case #251.

Proposal accepted.

#6 - 2015-02-06 10:29 - Anonymous

- *Status changed from Active to Accepted*
