Today F20.8 Annan specificerad schizofreni have DGCAT 19M13. There is no clinical difference between F20.0 – F20.9 and because of this F20.8 should also have DGCAT 19M10.

Analysis

Clinical analysis is enough.

Suggestion

F20.8 should have DGCAT 19M10 and also COMPL 19C02 the same way that the rest F20.- has.

COMMENTS

Expert Network 2011-03-17

The meeting recommended acceptance of the proposal that F20.8 should have DGCAT 19M10 and also COMPL 19C02 the same way that the rest F20.xx group has.

The case will be closed.

CHANGES

F20.8 is moved to diagnosis category 19M10 (instead of 19M13) and added to complication category 19C02.
