#### Description

National ID: CPK ID 552

Initiated: 2014-02-26

Initiator: The National Board of Health and Welfare Sweden

Responsible at National organization: Ralph Dahlgren, Mats Fernström

#### Problem

From the SWEX group a problem concerning the grouping av the procedure code JFC41 was asked.

The code groups to DRG F12E Andra operationer på magsäck, matstrupe och tolfingertarm, ej komplicerat (Former DRG 155N) because of the PROCPR 06S01 Stomach, esophagus or duodenum procedure which is a obvious mistake and can be changed without any investigation.

#### Analysis

Undeneath are the grouping rules for JFC40 and JFC41. The same type of surgery but don in two different ways.

JFC40	Ileorektal anastomos	OR	1	***
JFC40	Ileorektal anastomos	PROCPR	06S02	Major small or large bowel procedure
JFC40	Ileorektal anastomos	PROCPR	14S90	Significant operation for obstetrical patient
JFC40	Ileorektal anastomos	PROCPR	15S01	Major neonatal operation
JFC40	Ileorektal anastomos	PROCPR	21S09	Other OR procedure for injuries
JFC40	Ileorektal anastomos	DGPROP	00X99	Intervention code valid for single use
JFC40	Ileorektal anastomos	PROCPR	99S90	Extensive OR-procedure
JFC41	Laparoskopisk ileorektal anastomos	OR	1	***
JFC41	Laparoskopisk ileorektal anastomos	PROCPR	06S01	Stomach, esophagus or duodenum procedure
JFC41	Laparoskopisk ileorektal anastomos	PROCPR	14S90	Significant operation for obstetrical patient
JFC41	Laparoskopisk ileorektal anastomos	PROCPR	15S01	Major neonatal operation
JFC41	Laparoskopisk ileorektal anastomos	PROCPR	21S09	Other OR procedure for injuries
JFC41	Laparoskopisk ileorektal anastomos	DGPROP	00X99	Intervention code valid for single use
JFC41	Laparoskopisk ileorektal anastomos	PROCPR	99S90	Extensive OR-procedure

#### Suggestion

The National Board of Health and Welfare Sweden, 2014-02-27

This is an obvious error. Technical changes comes with the file "[CPK ID Decision 552 to Forum](#)".

#### Decided changes

The National Board of Health and Welfare Sweden, 2014-02-27

Sweden wants this to be corrected in the definitionstables for 2015.

### DRG change

Some cases will be mover from DRG F12E Andra operationer på magsäck, matstrupe och tolvfingertarm, ej komplicerat (Former DRG 155N) instead of DRG F09E Mindre tunn- och tjocktarmsoperationer, ej komplicerat (former DRG 153X).

### Technical change

JFC41 Laparoskopisk ileorektal anastomos has PROCPR 06S01 Stomach, esophagus or duodenum procedure and that should be changes to PROCPR 06S02 Major small or large bowel procedure.

See technical changes in the file "[CPK ID 552 Decision to Forum](#)".
